Educational Background

Please enter the requested information for all institutes of higher education you attended.

Transcript files must be included (unofficial copies are OK; you may want to white out sensitive information). For uploading your transcripts, please note that each file must be less than 10MB, and the combined total of all uploads must be under 20MB.

If you are applying for the Fuels Technician, Fuels Manager, or Senior Fuels Manager certification and plan to meet the minimum qualifications by demonstrating that you meet the required core competencies, please skip the Education section and proceed to Page 4: Core Competencies for Fuels Certifications.

Thesis and/or Dissertation

If you completed a thesis or dissertation as part of a graduate degree, please enter the title(s) below.

Thesis or Dissertation Title

Thesis or Dissertation Title

AFE Certified Wildland Fire Academic Programs

If you graduated from an AFE Certified Wildland Fire Academic Program, you will be able to skip the next section, Seven Required Areas of Study, and proceed to the Professional Experience section.

Did you receive a Bachelor of Science from an AFE Certified Wildland Fire Academic Program?

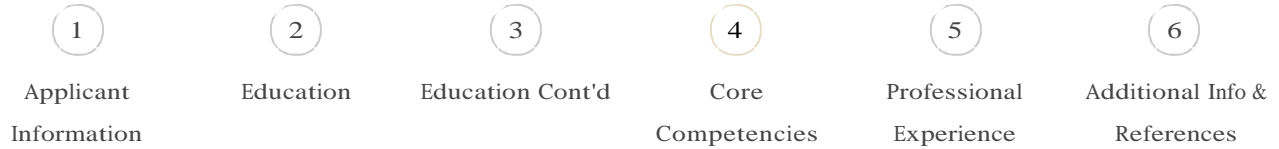

If yes, please select the program from the list below. Only select this option if you graduated after the program was certified (the year each program was certified is included in the list below).

Please choose from one of the options below:

Wildland Fire and Fuels Professional Certification

There are 6 pages in this application, and you will receive an email confirmation upon successfully submitting your application. This email will include a copy of your application for your records.

If you have any questions or problems with payment, please contact Annie Oxarart at office@fireecology.net

Core Competencies for Fuels Certifications

This section is only required for applicants seeking one of the Wildland Fuels Certifications. All others can skip to the next page.

Fuels Technician, Fuels Manager, and Senior Fuels Manager Applicants: Only complete this section if you plan to meet the minimum qualifications through the core competency requirement in lieu of an academic degree.

Fuels Scientist and Senior Fuels Scientist Applicants: Complete this section in addition to the information you submitted on your academic degree.

For this section, you will need to download the appropriate template at <https://fireecology.org/professional-certification>, complete the table, save the file as a PDF, and upload it below. If you refer to any additional documents in your competency table (e.g., management plan, reports) you can upload them as supporting documents.

Seven Required Core Areas of Study

Applicants are required to have completed at least 3 credits in 7 core areas of study.

For each course area below, include the following information, formatted as so:

Course Name, Course Number, Grade Received, and Credits: (Ex: 3S or 4Q, where S=Semester, Q=Quarter)

All courses listed should also appear on the transcripts you've uploaded.

If you do not meet the minimum credits in a category from coursework, you may include trainings, workshops, courses you taught, thesis or dissertation research, etc. Use the space provided to describe the experience and briefly explain how it meets the requirements. If you need more space than provided in the course field, there is box at the end of this section called *Other Documentation.

1) Fire Ecology: Minimum 3 semester credits

Fire Ecology Course

Fire Ecology Course

2) Fire Science and Management: Minimum 3 semester credits

Fire Behavior, Fuels Management, Fire Use, Fire Suppression, etc.

Fire Science and Management Course

Fire Science and Management Course

3) General Ecology: Minimum 3 semester credits

General Ecology, Disturbance Ecology, Natural Resources Ecology, etc.

General Ecology Course

General Ecology Course

4) Statistics: Minimum 3 semester credits

At a minimum this should include basic statistical analysis – e.g., ANOVA, correlation

Statistics Course

Statistics Course

5) Advanced Ecology and Biology: Minimum 3 semester credits

300 Level+ in Ecology, Forest Ecology, Wildlife Ecology, Botany, Agrostology, Plant Pathology, Zoology, Entomology, Ecophysiology, etc.

Advanced Ecology & Biology Course

Advanced Ecology & Biology Course

6) Measurement and Analysis: Minimum 3 semester credits

Remote Sensing, GIS, Ecological Modeling, Vegetation Sampling/Mensuration, Biometry, etc.

Measurement & Analysis Course

Measurement & Analysis Course

7) Environmental Sciences: Minimum 3 semester credits

Meteorology or Climatology preferred; Geology, Hydrology, Soils, Physical Geography, etc.

Environmental Sciences Course

Environmental Sciences Course
